JOINT PRETRIAL ORDER

(Proposed)

16 Comes now, Plaintiff WILLARD PATRICK WITHAM (henceforth "Plaintiff" or
17 "Plaintiff Witham,"), by and through his counsel of record, KEVIN R. HANSEN, ESQ. and
18 AMANDA A. HARMON, ESQ. of the Law Offices of Kevin R. Hansen, and Defendant PERI
19 FORMWORK SYSTEMS, INC., (henceforth "Defendant Peri"), by and through their attorneys
20 of record JOEL D. ODOU, ESQ., and DANIEL E. JOSLYN, ESQ., of Wood, Smith, Henning &
21 Berman, LLP., hereby submit the instant proposed Joint Pretrial Order.

22 ///

23 ///

1 After pretrial proceedings in this case,

2 **IT IS SO ORDERED:**

3 **I.**

4 The instant case is an action for negligence. On August 24, 2019, Willard Patrick Witham
5 was employed by M.J. Dean Construction, Inc. as a Journeyman Carpenter working on the MSG
6 Sphere Project in Las Vegas, Nevada. The General Contractor of the MSG Sphere Project
7 contracted with PERI Framework Systems, Inc. as the material supplier of formwork, shoring,
8 scaffolding and attendant materials for the project.

9 On August 24, 2019 Mr. Witham set up his 32' extension ladder on the inside of the Peri
10 multiprop shoring tower that was put in place by a crane operator. The ladder was placed on the
11 inside of the tower leaning up against the south MRK rail. Mr. Witham unhooked the crane
12 rigging from the shoring tower and signaled the crane to cable up. As the crane was loading up,
13 the rigging got hooked on the MRK pin causing the tower to tip over and fall with Mr. Witham
14 inside the shoring. This caused Mr. Witham to fall off the ladder and hit the ground from
15 approximately 20 feet high, causing serious and permanent personal injuries to Mr. Witham.

16 Plaintiff has brought a claim for strict product liability and negligence against Defendant
17 Peri therein complaining Defendant failed to provide safe, non-defective, scaffolding forcing
18 Defendant Witham into an accident which could have been avoided.

19 On April 1, 2024, the Court granted Defendant's Motion for Summary Judgment in part,
20 disposing of Plaintiff's claim for strict product liability. Plaintiff's claim for negligence remains.

21 Plaintiff seeks general damages, special damages, loss of future earnings and earnings
22 capacity, reasonable attorneys' fees and costs, and any further relief which this Court may deem
23 just and proper.

1 Defendant Peri generally denies Plaintiff's claims set forth in Plaintiff's complaint and
 2 contends that Defendant did not owe any legal duty to the Plaintiff and thus, there was no breach
 3 by the Defendant that caused Plaintiff's damages.

4 II.

5 Statement of Jurisdiction: (State the facts and cite the statutes which give this court
 6 jurisdiction of the case).

7 This case was originally filed with the Eighth Judicial District Court in Clark County,
 8 Nevada, on July 28, 2021. On September 2, 2021, Defendant Peri, filed a Petition for Removal
 9 pursuant to 28 U.S.C. section 1446(d), which provides that the filing of the Petition for Removal
 10 and the filing of the Notice "shall effect removal" to the United States District Court of Nevada
 11 "and until the case is remanded."

12 III.

13 The following facts are admitted by the parties and require no proof:

- 14 1. The MSJ Sphere Project (the "Sphere Project") was a major construction project
 15 located at 255 Sands Avenue, Las Vegas, Clark County, Nevada.
- 16 2. Non-party M.J. Dean Construction, Inc. ("M.J. Dean") was a contractor on the Sphere
 17 Project.
- 18 3. As part of M.J. Dean's work on the Sphere Project, M.J. Dean contracted with PERI
 19 to provide components that could be assembled into a multiprop shoring system for
 20 the Sphere Project, specifically the PERI Multiprop shoring system (the "PERI
 21 Multiprop").
- 22 4. Defendant PERI is a Foreign Corporation formed and existing under the laws of the
 23 State of Maryland conducting business in Clark County, State of Nevada.

1 5. On August 24, 2019, Plaintiff Willard Witham ("Plaintiff"), an employee of M.J.
2 Dean, was working as a Journeyman Carpenter at the Sphere Project construction site
3 in Las Vegas.

4 6. At the time of the accident, Plaintiff was unhooking rigging that had been used to
5 move a PERI Multiprop shoring tower (the "Tower") from one location to another on
6 the Sphere project jobsite.

7 7. Plaintiff installed an extension ladder inside the Tower, which he then used to access
8 the top of the Tower so he could release the rigging from the Tower.

9 8. Once the rigging was detached from the Tower, Plaintiff signaled the crane operator
10 to lift the detached rigging up and away from the Tower.

11 9. As the crane was loading up, the rigging got hooked on the MRK pin, causing the
12 tower to tip over and fell off the ladder.

13 10. Plaintiff fell to the ground from approximately 20 feet high.

14 11. Plaintiff sustained serious and permanent personal injuries as a result of the fall.

15 **IV.**

17 contrary:
